EDUCATION

University of Waterloo
Sep 2017 - Present

Bachelor's of Software Engineering
Expected Graduation - 2022

WORK EXPERIENCE

Geotab
Jun 2017 - Aug 2017

Jr. Software Developer Intern
Developed an automation system for the HR department using Google Apps Script. Significantly increased team efficiency by automating redundant tasks such as emails, calendar events, and resume identification.

Freelance
May 2017 - Present

Web Developer & Graphic Designer
Developed high-end websites and designs for clients. Projects include creating a functional website for ITEE Group Canada and website/mobile app redesign for ZippyFix.

Viceroy Media, Inc.
Jun 2016 - Feb 2017

Jr. Software Developer Intern
Worked with a team to develop the University of Guelph Exam Network web application. Implemented the Materials Centre and integrated Login.

PROJECTS

Point-To-Speech
April 2017

Point-To-Speech
Created a device to help blind people read regular pages of text by reading out text when a user hovers their finger over a page.

IRHS DECA
Sep 2016

IRHS DECA Exam Parser & Web Application
Used nodeJS to parse poorly formatted practice exams and output self-marking forms to a web application. Also featured a login system with admin access.

ACHIEVEMENTS

SHAD
July 2017

SHAD Valley Alumni
Was one of the 750 youth to attend SHAD Valley in 2017.

Loran Foundation
Nov 2016

Loran Scholarship Semi-Finalist
Recognized in the top 350 of 4500 applicants for Canada's most prestigious scholarship.

SKILLS

HTML/CSS
JS/jQuery
Swift
PHP
SQL
Git
